

March 7, 2012

Dear Mike,

We greatly appreciate your tremendous help in designing and building our new home in Carriage Park. We lived in Winter Park Florida, for us a two day drive away during the process, and it is greatly appreciated that you and your team of subcontractors and recommended designer Dee Ann were able to keep us informed and advised on the better way things should go. We thoroughly enjoyed working with you and your team and found that all were very helpful and provided good advice and counsel. Further, the workmanship and skill shown by your team was excellent.

We are very pleased with our new home having now lived in it since September 2011. The home is beautiful and functional. Details discussed during the build cycle are all as defined and work well. Suggestions made by yourself and your team are good ones and make our retired life more comfortable and care free. Thanks again for your care and consideration during the build and thank your team members who in our opinion did an outstanding job.

Bob and Judy Fischer
